Analysis of the volume of cash operations in domestic currency for January – February 2024

In January – February 2024 the volume of cumulative cash receipts from banks exceeded the volume of cumulative cash releases in the banking system[1] by MDL 398.5 million.

In the reference period, the volume of cumulative cash receipts increased by MDL 417.0 million (+1.6%) compared to the similar period of the previous year and amounted to MDL 26,295.1 million.

A significant increase was recorded in the receipts from the sale of consumer goods (regardless of the sales channel), by MDL 1,107.2 million (+8.2%), up to the total amount of MDL 14,563.4 million, which represents 55.4 percent of the total volume of receipts (Chart 2). Substantial increases were also recorded for other cash receipts – by MDL 412.3 million (+11.1%), as well as for receipts from businesses that provide other services - by MDL 350.6 million (+20.2%).

At the same time, in January – February 2024, considerable decreases were recorded in cash receipts on current accounts and deposit accounts of individuals - by MDL 582.5 million (-17.6%), in receipts from payments for rent and utilities - by MDL 397.5 million (-56.6%), as well as for receipts from the sale of foreign currency to individuals - by MDL 242.2 million (-21.3%), amounting to MDL 893.8 million, which is the equivalent of USD[2] 50.3 million (Chart 1).
