[4]

1. Broad monetary base includes money issued into circulation by the National Bank of Moldova (excluding cash in its own vault), bank reserves in domestic currency (held in corresponding accounts at the National Bank of Moldova), required reserves in foreign currency, banks “overnight” deposits and sight deposits of other organizations at the National Bank of Moldova.
2. Currency in circulation M0 represents cash issued by the National Bank of Moldova, excluding cash held in the banks’ vaults and the NBM vault.
3. Aggregate data may not match the sum of components due to mathematical rounding.
4. Money supply M1 includes currency in circulation M0 and residents’ sight deposits in domestic currency.
5. Money supply M2 includes money aggregate M1, residents’ term deposits in domestic currency and money market instruments.
6. Money supply M3 includes M2 money supply and residents’ foreign currency deposits converted in MDL.
7. Deposits are broken down by institutional sectors in accordance with the Instruction on the procedure for compiling by licensed banks a monetary statistics report (Official Monitor of the Republic of Moldova No 206-215 of 2 January 2011). Other resident sectors include households (individuals, individuals performing an activity) and non-profit institutions serving households.
8. According to the IMF methodology, loans to non-residents, interbank loans, and loans to the Government of the Republic of Moldova are excluded from the total claims on the economy (including data from banks under liquidation).
9. Recalculated using the end of period NBM official exchange rate.
10. Claims on national economy represent claims of the banking system of the Republic of Moldova (including banks in the process of liquidation), in domestic and in foreign currencies, on non-financial commercial companies which majority ownership is public or private, on other resident sectors. This indicator includes loans and borrowings (including amounts in arrears), debt securities, shares and other claims.
