## Money transfers from abroad made in favour of individuals through banks of the Republic of Moldova in the third quarter of 2020 (net settlements)

In the third quarter of 2020, the total amount of money transfers from abroad made in favour of individuals of the Republic of Moldova amounted to USD 423.74 million. It should be mentioned that a share of 84.2 percent of money was transferred via money remittance systems (in USD, EUR and RUB), mainly without opening bank accounts, whereas 15.8 percent represented bank transfers (in different currencies) carried out via the SWIFT system, presented in gross settlements.

In the third quarter of 2020, the amount of transfers, recalculated in USD, increased by 34.7 percent, compared to the third quarter of 2019 (USD 314.51 million). The fluctuations in the exchange rate of original currencies against the U.S. dollar (Chart no.1) contributed by 6.1 percentage points to the increase in the value of transfers in the third quarter of 2020. However, the effective increase of transfers was 28.6 percent, being eliminated the exchange rate effect through the recalculation of amounts at the exchange rate for the respective period of the previous year. This occurred as a result of the impact of increase in transfers in EUR and USD by 53.5 percent and 16.4 percent, respectively, and the decrease in transfers in RUB by 49.6 percent. Thus, in the third quarter of 2020, the currency structure of transfers (recalculated in USD) was the following: EUR - 271.50 million, USD - 141.87 million, RUB - 6.19 million and other currencies 4.18 million. Chart no.1 shows the impact of the USD/EUR and USD/RUB exchange rate's modification on the volume of monthly transfers in favour of individuals.

In terms of the geographical origin of money transfers from abroad in favour of individuals, the EU and the CIS are to be mentioned as the main areas generating remittances (Chart no.2). Money transfers from EU-27 held a share of 46.5 percent, having increased by 6.8 percentage points compared to the EU-27, third quarter of 2019. Due to Brexit, the volume of transfers from the EU-27 in the third quarter of 2020 was lower by USD 33.63 million, while that of transfers from the rest of the world increased with the same amount. Money transfers from the CIS region accounted for a share of 15.5 percent, having decreased by 7.4 percentage points compared to the third quarter of 2019. The transfers from other countries, excepting the EU and CIS, accounted for 38.0 percent in the third quarter of 2020 and 30.7 percent in the third quarter of 2019, respectively. In the third quarter of 2020, the share of transfers from Israel, United Kingdom and USA recorded 88.3 percent of total transfers from other countries.

**Dynamics of transfers (top three countries) in favour of individuals (2015-2019 - annual dynamics; 2017-2020 - quarterly dynamics), %**

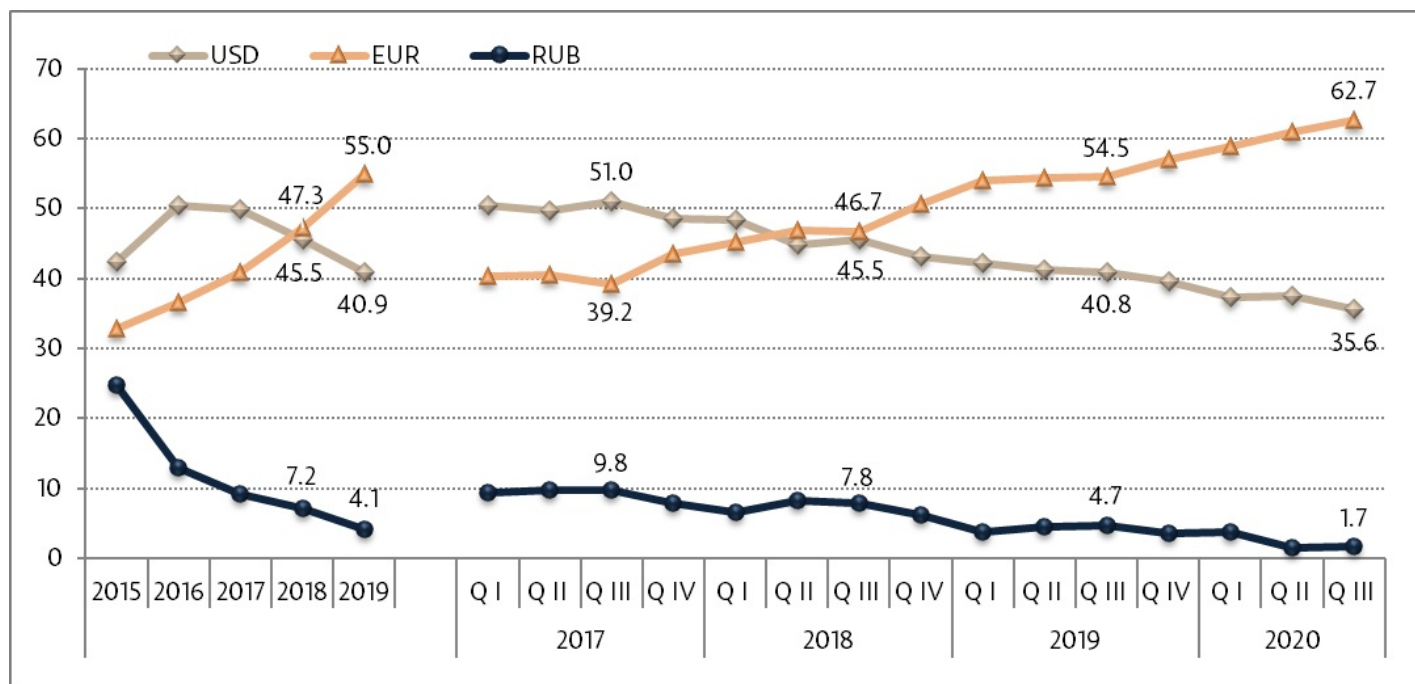

SOURCE: NBM, The International banking operations statistics.

The quarterly share of transfers in RUB via money remittance systems recorded a steady downward trend, having decreased from 9.8 percent in the third quarter of 2017 to 1.7 percent in the third quarter of 2020. The share of transfers in USD recorded a downward trend, having decreased from 51.0 percent in the third quarter of 2017 to 35.6 percent in the third quarter of 2020.

Chart no. 5.

**Currency structure of money transfers from abroad in favour of individuals via money remittance systems (2015-2019 - annual dynamics; 2017-2020 - quarterly dynamics), %**

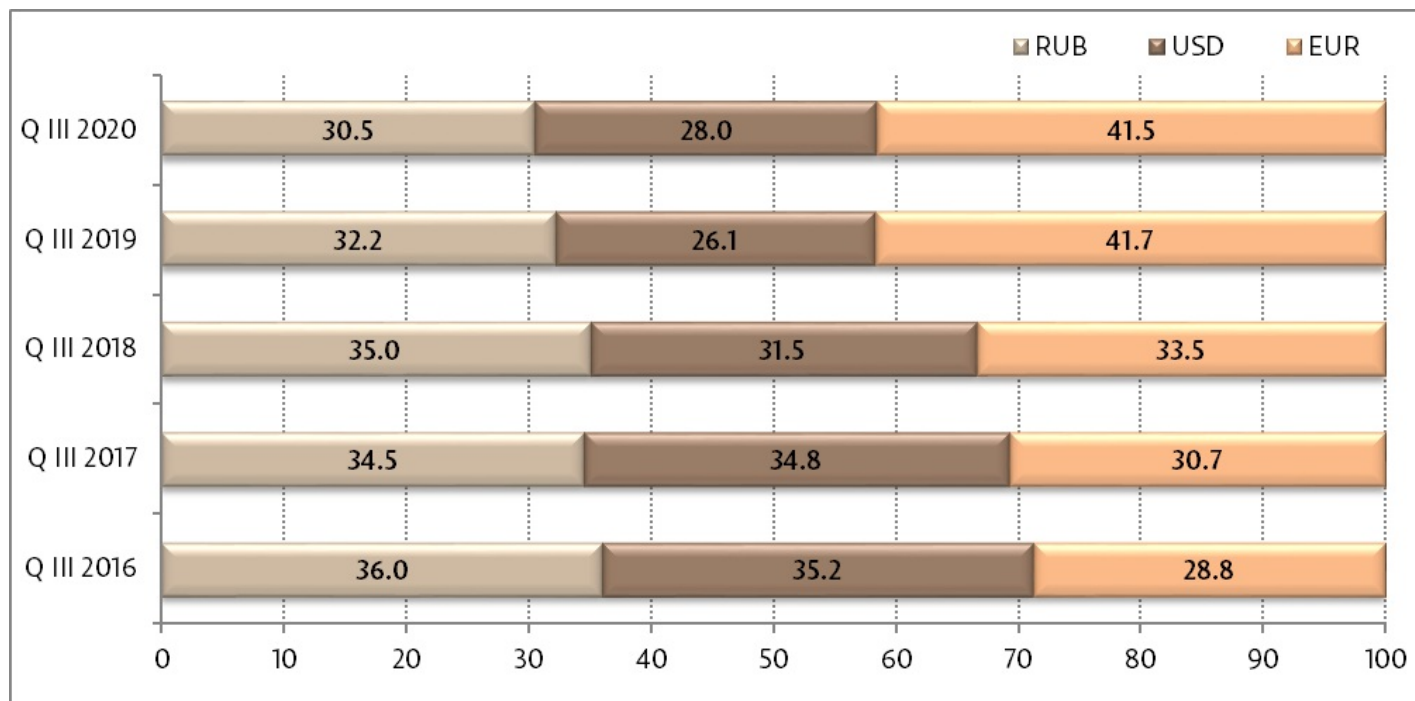

SOURCE: NBM, The International banking operations statistics.

In the third quarter of 2020, as compared to the same period of the previous year, the quarterly share of transfers in EUR (recalculated in USD) increased by 8.2 percentage points, to 62.7 percent, while the quarterly share of transfers in USD and RUB (recalculated in USD) decreased by 5.2 percentage points, to 35.6 percent, and by 3.0 percentage points, to 1.7 percent, respectively. Thus, the share of transfers in EUR recorded an upward trend, having increased from 39.2 percent in the third quarter of 2017 to 62.7 percent in the third quarter of 2020 (Chart no.5).

Chart no. 6.

**Currency structure of money transfers via money remittance systems from the Russian Federation, recalculated in USD, in the third quarter of the years 2016 - 2020, %**

SOURCE: NBM, The International banking operations statistics.

In the third quarter of 2020, the transfers from the Russian Federation via money remittance systems (Chart no.6), in quarterly average values (recalculated in USD), consisted of: transfers in RUB holding a share of 30.5 percent, transfers in EUR - 41.5 percent, and the transfers in USD - 28.0 percent. During 2016 - 2019, the share of transfers in EUR from Russian Federation recorded a steady increase, growing from 28.8 percent in the third quarter of 2016 to 41.7 percent in the third quarter of 2019 and a decrease to 41.5 percent in the third quarter of 2020.

**NOTE:**

The National Bank of Moldova notes that money transfers from abroad in favour of individuals via banks do not consist solely of remittances of Moldovan citizens working abroad, but also include unilateral transfers such as:

1. local transfers, including salary transfers in favour of resident individuals from non-residents representatives (representative offices of international financial institutions, international organisations, and representations of foreign economic agents) in the Republic of Moldova (0.8 percent of the total transfers);
2. transfers in favour of non-residents who are temporarily in the Republic of Moldova (0.2 percent of the total transfers via money remittance systems);
3. pensions (social and maintenance) and allowances (0.4 percent of the total transfers).

Money transfers from abroad in favour of individuals through Moldovan banks also include transfers of individuals made via postal offices of the State Enterprise "Poșta Moldovei" (settled through banks), both via money remittance systems and money orders.

Note that this indicator does not include:

- a) international transfers to individuals made via SWIFT payment system with an investment purpose (with significant values), which amounted to USD 5.87 million in the third quarter of 2020;
- b) international transfers via SWIFT payment system to non-resident individuals, clients of licensed Moldovan banks;
- c) transfers made via so-called banks in the Transnistrian region of the Republic of Moldova.

Time series on money transfers from abroad made in favour of individuals via banks of the Republic of Moldova in the period of 1999 - 2020 can be found on the official website of the NBM:
