The National Bank asks for opinions to improve the process of lending to the national economy

Lending to real sector is the main pillar of ensuring a sustainable economic growth of the country. The main goal of the financial-banking system is to ensure a permanent flow of financial resources from savings to real sector. In this context, the NBM is developing rules and principles, setting adequate prudential and monetary conditions to support the process of lending to the national economy branches.

In order to be aware of the economic, legal, monetary, prudential and bureaucratic constraints affecting the process of lending to the real sector, the National Bank of Moldova solicits sending proposals to improve the process of lending to the national economy to Andrei.Rotaru@bnm.md ^[1] by 20 April 2017.
