Event Name (assignment name):

PR 018698 – Moldova: Bank and Insurance Resolution Expert to Support the Capacity of the National Bank of Moldova with the Transposition of Chapter 9 (Financial Services) of the EU Acquis

Event Description:

The Republic of Moldova is at a pivotal stage in its path toward European integration and sustainable economic growth. Following the parliamentary elections in September 2025, the country reaffirmed its commitment to EU accession, with the new government setting an ambitious goal to achieve EU membership by 2028. The granting of EU candidate status has further accelerated the need for comprehensive reforms to align Moldova's legal, regulatory, and economic frameworks with EU standards.

Since the signing of the EU-Moldova Association Agreement and the establishment of the Deep and Comprehensive Free Trade Area (DCFTA) in 2014, Moldova has made significant progress in socio-economic development. However, structural inefficiencies, the lingering effects of the COVID-19 pandemic, and regional instability continue to impede Moldova's convergence with EU norms.

In response, the European Commission has launched the Moldova Growth Plan, a comprehensive initiative designed to accelerate reforms and prepare the country for deeper integration with the EU.

To support these objectives, the EBRD is looking to engage a Bank and Insurance Resolution Expert (Expert), who will contribute to the alignment of Moldova's financial sector with Chapter 9 (Financial Services) of the EU Acquis. The Expert will focus on drafting and adopting regulations harmonised with Chapter 9 of the EU Acquis and building institutional capacity of the National Bank of Moldova.

Start Date and Duration of the Assignment:

The assignment is expected to last 12 months, commencing in Q2 2026, with full-time commitment for on-site work.

Event Cost Estimate:

To be determined at contract negotiations with the highest ranked supplier.

Supplier Profile:

EBRD intends to select and contract an Individual consultant with the following expertise:

- Advanced degree in Law, Economics, Finance, or EU Studies.
- 3-5 years of experience working in central banks, financial regulators, or ministries on regulatory reforms.
- Deep understanding of EU directives and regulations on banking and insurance (specifically, the Directive 2025/1/EU on recovery and resolution in the insurance sector), Financial Market Infrastructure, Securities Markets and Investment Services.
- Experience in harmonizing national legislation with EU acquis, including drafting laws, gap analysis, and compliance frameworks.
- Ability to interpret EU directives, assess compliance gaps, and propose legislative amendments.
- Awareness of emerging EU priorities like ESG disclosures and fintech regulation.
- CFA, CIPM, or equivalent credentials in financial analysis and compliance are a plus.
- Ability to liaise with government bodies, regulators, and industry associations.
- Full working proficiency of Romanian and English.
