## Money transfers from abroad made in favour of individuals through banks of the Republic of Moldova in 2016 (net settlements)

In 2016, the total amount of money transfers from abroad made in favour of individuals of the Republic of Moldova amounted to USD 1 079.24 million. It should be mentioned that a share of 83.8 percent of money transfers were carried out via money transfers systems (MTS) without opening bank accounts (only in USD, EUR and RUB), and the rest - via bank transfers (in various currencies).

The USD amount of total transfers in 2016 decreased by 4.4 percent compared to 2015 (USD 1129.36 million), including by 1.2 percentage points due to the depreciation of EUR against USD (calculations made in accordance with official daily rated of the NBM). The real drop of total transfers was 3.2 percent. This was due to the impact of decrease of transfers in RUB by 49.4 percent and the increase of transfers in EUR by 5.9 percent, of those in USD by 8.5 percent and in other currencies by 25.1 percent. Thus, in 2016, the currency structure of transfers (recalculated in USD) was the following: USD - 530.10 million, EUR - 428.60 million, RUB - 118.52 million and other currencies 2.02 million. The impact of USD/EUR and USD/RUB exchange rate changes on monthly transfers made in favour of individuals is presented in Chart no.1.

In 2016, the changes in the currency structure of transfers via MTS reflected both quantitative reduction of transfers from Russian Federation (Chart no.6) (e.g. May, July, September-November), and the impact of depreciation (e.g. February, August, November) and of appreciation (e.g. March-July, September, October, December) of the Russian rouble against the U.S. dollar.

During 2016, the Russian rouble appreciated significantly against the MDL (by 23.1 percent), which had an increasing impact on the volume of transfers recalculated in MDL.

NOTE:

The National Bank of Moldova notes that money transfers from abroad in favour of individuals via banks do not consist solely of remittances of Moldovan citizens working abroad, but also include unilateral transfers such as:

- 1) local transfers, including salary transfers in favour of resident individuals from non-residents' representatives (representative offices of international financial institutions, international organisations, and representations of foreign economic agents) in the Republic of Moldova (1.4 percent of total transfers);
- 2) transfers in favour of non-residents who are temporarily in the Republic of Moldova (0.7 percent of total transfers via MTS);
- 3) pensions (social and maintenance) and benefits (0.3 percent of total transfers).

Money transfers from abroad in favour of individuals through Moldovan banks also include transfers of individuals made via postal offices of the State Enterprise "Poșta Moldovei" (settled through banks), both via MTS and money orders.

Note that this indicator does not include:

- a) international transfers to individuals made via SWIFT payment system with an investment purpose (with significant values), which amounted in 2015 to USD 18.27 million;
- b) international transfers via SWIFT payment system to non-resident individuals, clients of licensed Moldovan banks;
- c) transfers made via banks located in the Transnistrian region of the Republic of Moldova.

Time series on money transfers from abroad made in favour of individuals via banks of the Republic of Moldova in the period of 1999-2015 can be found on the official website of the NBM:
