Money transfers from abroad made in favour of individuals through banks of the Republic of Moldova in the first quarter of 2018 (net settlements)

In the first quarter of 2018, the total amount of money transfers from abroad made in favour of individuals of the Republic of Moldova amounted to USD 297.45 million. It should be mentioned that a share of 83.8 percent of money transfers was carried out via money transfer systems (only in USD, EUR and RUB) without opening bank accounts, while the rest - via bank transfers (in various currencies).

In the first quarter of 2018, the amount of transfers, recalculated in USD, increased by 18.1 percent, compared to the first quarter of 2017 (USD 251.78 million). The fluctuations in the exchange rate of original currencies against the U.S. dollar (Chart no.1) contributed by 7.2 percentage points to the increase in the value of transfers in the first quarter of 2018. However, the effective increase of transfers was 10.9 percent, being eliminated the exchange rate effect through the recalculation of amounts at the exchange rate for the respective period of the previous year. This occurred as a result of the impact of decrease in transfers in RUB by 18.3 % and the increase in transfers in EUR and USD by 31.8 percent and 12.3 percent, respectively. Thus, in the first quarter of 2018, the currency structure of transfers (recalculated in USD) was the following: USD - 136.82 million, EUR - 141.09 million, RUB - 16.43 million and other currencies 3.11 million. Chart no. 1 shows the impact of the USD/EUR and USD/RUB exchange rate's modification on the volume of monthly transfers in favour of individuals.

NOTE:

The National Bank of Moldova notes that money transfers from abroad in favour of individuals via banks do not consist solely of remittances of Moldovan citizens working abroad, but also include unilateral transfers such as:

1. local transfers, including salary transfers in favour of resident individuals from non-residents' representatives (representative offices of international financial institutions, international organisations, and representations of foreign economic agents) in the Republic of Moldova (1.1 percent of the total transfers);
2. transfers in favour of non-residents who are temporarily in the Republic of Moldova (0.6 percent of the total transfers via MTS);
3. pensions (social and maintenance) and allowances (0.3 percent of the total transfers).

Money transfers from abroad in favour of individuals through Moldovan banks also include transfers of individuals made via postal offices of the State Enterprise "Poșta Moldovei" (settled through banks), both via MTS and money orders.

Note that this indicator does not include:

- a) international transfers to individuals made via SWIFT payment system with an investment purpose (with significant values), which amounted to USD 3.55 million in the first quarter of 2018;
- b) international transfers via SWIFT payment system to non-resident individuals, clients of licensed Moldovan banks;
- c) transfers made via banks located in the Transnistrian region of the Republic of Moldova.
